PROFESSIONAL SUMMARY

BS Information Systems graduate with production experience building and deploying full-stack web systems. Built two live systems for PHILRADS during OJT — covering inventory management, asset tracking, FEFO logic, dual-admin approvals, RBAC, and immutable audit trails. Also led a capstone academic performance tracker from design through deployment. Comfortable owning a project end-to-end, from requirements gathering to go-live

WORK HISTORY

IT Intern – Operations & Administration Department February 2026 – May 2026
Philippine Relief and Development Services (PHILRADS), Quezon City

- Designed, built, and deployed two full production web systems actively used by the organization.
- Collaborated with supervisors and staff to gather requirements, conduct testing, and iterate on system features.
- Completed 462 hours of on-the-job training under the Operations and Administration Department.

Administrative Support & Community Outreach 2020 – 2023
Provincial Government Office, Virac

- Handled data entry, document preparation, correspondence management, and compliance reporting.
- Managed multiple deadlines in a fast-paced environment, streamlining workflows and improving efficiency.

PROJECT HISTORY

PRDS Inventory Management System (IMS) 2026
Technologies: PHP 8.1, MySQL, JavaScript, Apache — Built during OJT at PHILRADS

- Full-stack donation & release tracker for a relief NGO with FEFO batch deduction, dual-admin approval workflow, and 5 permission roles — 30+ REST API endpoints.
- Immutable audit log with IP tracking, mobile card-mode tables, event management with dual-admin sign-off, and multi-item release in a single submission.

PHILRADS Asset Database System 2026
Technologies: PHP, Bootstrap, JavaScript — Built during OJT at PHILRADS

- Web-based asset tracker with maintenance logs, staff approval workflow, QR code labeling, and role access tiers.
- Includes CSV export, depreciation & inventory reports, SQL backup, and activity audit log with IP & user-agent tracking.

KIDDY TRACK – Lead Programmer 2024 – 2026
Web-Based System for Streamlining Student Academic Performance for Teacher & Parent Monitoring
Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Led full-stack development: database schema, teacher/parent dashboards, and academic data reporting modules.
- Applied systems analysis principles; implemented secure, role-based monitoring for educational stakeholders.

EDUCATION

BS Information Systems	Senior High — TVL/ICT Track	Junior High School
Catanduanes State University	Catanduanes Colleges	Catanduanes Colleges
2022 – 2026	2017 – 2019	2013 – 2017

CERTIFICATIONS & AWARDS

◦ OJT Completion — PHILRADS, Operations & Admin Dept. (462 hrs)	2026
◦ Power BI Dashboard: Zero to Low Code — DataSense Analytics	2026
◦ Webinar — From Manual to Algorithmic: Disaster Relief with Data	2026
◦ Webinar — Predicting Dengue: ML-Based Public Health Action	2026
◦ 2023 DOLE Certificate of Eligibility — Government Internship Program (GIP)	2026
◦ 2023 HACK4GOV Capture the Flag — Participant	2026
◦ 2019 Certificate of Loyalty — Catanduanes Colleges K-12 Program	

CORE SKILLS

- Full-Stack Web Dev
- Database Design & SQL
- Photography
- Systems Analysis
- IT Troubleshooting
- Data Analytics
- Freelance Editor

INTERESTS

- Role-Based Access Control
- Audit Trail & Security
- Requirements Gathering
- Stakeholder Communication
- Cybersecurity & CTF
- Videography
- UI/UX Design
